SUMMARY

8+ years in retail, wholesale, health and fintech, on the business side of the numbers: sales, marketing and pricing. At METRO Kazakhstan I run the Growth & Profitability department in six cities, with KPIs in gross margin, contribution margin, Total Income and price index.

KEY RESULTS

- **Real-time dashboards and Price Index** replaced manual price checks and reporting; analytics tools give a 360° view of key metrics.
- **Regulatory analysis and repricing:** reviewed socially important goods and repriced the full range of 10,000+ SKUs for the VAT increase from 12% to 16%, with no disruption.
- **Segmentation:** CRM segmentation of 15,000+ patients raised Interna Clinic's average ticket by 20%; repeat visits 15% → 70% after a new call center.
- **Process automation:** assortment matching 7 days → 15 minutes; POSM layouts 2 days → 20 minutes, adopted by METRO/MAKRO in four more countries.
